Cut out these numbers to place...

# 8 Digit Puzzle Questions

1. For each number, ask yourself, "How many consecutive numbers does this have?"  
For example, 5 has two consecutive numbers - 4 and 6.
2. For each box in the puzzle area, ask, "If a number is here, where can its consecutive numbers go?"
3. As you work through the puzzle, ask yourself, "Is there really a solution to this?"
4. If there is a solution, ask, "Is there any other solution?"
5. If you feel there are more solutions, ask, "How many other solutions are there?"
6. See if you can create a 6 digit puzzle that has the same rules. Or a 7, 5 or 15 digit puzzle.
