Multiples of 3

1. Color all multiples of 3. (Start with 3 and then count and color every 3 after that.)
2. Compare your sheet with a friend to see if you have the same numbers colored. If not, figure out what went wrong and help each other fix it.
3. On the blank grid, color the same squares as you just did on the Hundred Chart. How could you describe the pattern to someone else?
